Joaquín Rodríguez Gala

Full Stack Developer

Email: joaquin.rg04@gmail.com | Phone: 3472550368

Professional Profile

I am a highly motivated Full Stack Developer with 4 years of experience in creating innovative and scalable technological solutions. My expertise ranges from mobile app development using Flutter and Dart to designing robust backend systems with Python. I am constantly focused on continuous improvement and solving complex problems, enabling me to develop efficient solutions in dynamic and collaborative environments. I seek a challenging professional environment where I can grow and contribute effectively.

Technical Skills

- Programming Languages: Python, JavaScript, Java, C, C++, C#, Dart

- Web Development: HTML, CSS, JavaScript

  - Frameworks: React, Angular

- Mobile Development: Flutter (Dart)

- Databases: MySQL, SQLite, Firebase, PostgreSQL

- Version Control: Git

- Development Methodologies: Agile, Scrum

Soft Skills

- Creative problem-solving and solution optimization

- Analytical thinking, focused on effective decision-making

- Effective communication skills, both written and verbal

- Multidisciplinary teamwork and collaboration in complex projects

- Adaptability to changing environments and a proactive approach to continuous learning

Languages

- Spanish: Native

- English: Fluent (C1)

- Portuguese: Advanced (B2)

Education

- Austral University

  Currently pursuing a degree in Programming with an emphasis on web, mobile, and backend development.

- Sagrado Corazón High School

  High school diploma (Graduated in 2021)

Professional Experience

Personal Projects:

- Mobile App Development: Designed and developed cross-platform mobile applications with Flutter and Dart, optimizing user experience through intuitive and high-performance interfaces.

- Backend Systems: Created RESTful APIs and scalable backend systems using Python, integrating databases such as MySQL and Firebase to ensure efficient data management.

- Web Development: Implemented interactive websites using technologies like HTML, CSS, and JavaScript, leveraging frameworks like React and Angular to enhance usability and functionality.

Academic Experience:

- Actively participated in university projects where I applied my programming knowledge, working with Python, C, C#, and databases to generate practical solutions.

- Applied agile methodologies like Scrum in software projects, promoting collaboration and the

efficient delivery of results.
